RESOURCES FOR STP LEADERS

Updated January 10, 2022

We have set up the following resources to assist STP leaders in communicating with each other, to maintain records for STP’s archives, and to facilitate the transfer of leadership roles when new leaders begin their terms. These accounts will also reduce confusion in case a leader moves to a different institution and may reduce the chance that someone sends correspondence to a former leader’s email account.

Please note: If any of the instructions or links below do not work, please email the STP Executive Director who can provide assistance and updates as necessary.

STP Leadership Page

STP maintains a list of current STP Leadership with titles for each position; names, terms, institutions, and email addresses for each leader; and links to STP websites associated with each leader. Visit [http://teachpsych.org/STPLeaders](http://teachpsych.org/STPLeaders) and confirm the accuracy of the information for your position. If the information needs corrections or updates, contact the STP Executive Director.

DIV2LEADERSHIP Listserv

STP uses the DIV2LEADERSHIP Listserv to communicate with all STP Leaders. All STP email accounts and elected officers have subscriptions to this Listserv. If you would like to check whether your STP email is included in the subscription list, contact the Executive Director.

STP Gmail Accounts

Each STP leader has been assigned a user@teachpsych.org account. Please use this account for official STP business (e.g., receiving applications for grants or awards; communicating with STP members or other STP leaders, etc.). This Gmail account is also used to communicate with you through the DIV2LEADERSHIP Listserv, is linked to your STP Dropbox account, and will provide you editing access to Web pages.
associated with your leadership position on the STP website.

Please contact the STP Executive Director or Internet Editor if you need assistance in gaining access to this account or setting up forwarding of messages.

Login to STP email via Web browser

STP uses Gmail as its email client. To view and create emails in a Web browser, visit http://gmail.teachpsych.org/ and enter the following:

**Account:** user@teachpsych.org (Enter the email account assigned to your leadership role.)

**Password:** If you do not know or cannot recall your password, you may ask STP’s Executive Director or Internet Editor to provide you a new password.

If you are new to Gmail or have questions, visit here for Gmail support. https://support.google.com/mail/.

Changing your STP email password

You will be assigned a password for your STP email account. You may change your password if you prefer something easier to remember or for security purposes; visit here for instructions. The Executive Director or Internet Editor can help retrieve your email account in case you cannot recall or do now know your password.

Using Gmail in another email client

Visit here for instructions on setting up Gmail in Outlook, iPhone, Thunderbird, Apple Mail, or another email client.

**GSuite apps (Docs, Chat, etc.)**

Each STP email account includes access to several Google applications: Drive, Docs, Sheets, Forms, Chat, Meet, and others. Please use these services for current STP-related business (e.g., collaborating on working drafts, maintaining current documents). Please place final versions of documents into the STP Dropbox folder (see below) so that we can maintain those documents for the archives.

Each GSuite account has 30 GB storage limit for all emails and documents. If you are nearing that limit, you may need to delete older emails or documents that are no longer relevant to your current work. Before doing so, please save final versions of documents for archival purposes in your STP Dropbox folder before deleting them from Gmail or Google Docs.

Auto forwarding email messages

If your leadership position is unlikely to require you to receive or send many emails, you may set your account to forward emails to whatever email account(s) you prefer. Auto forwarding will enable you to receive messages from the DIV2LEADERSHIP account so that you can keep informed about STP business. For instructions on forwarding Gmail, visit here.

**Sharing STP email accounts**

There may be occasions when an STP Leader would like to share an STP email account with another leader (e.g., co-chairs of a committee, co-editors of an STP publication). This may be accomplished in one of two ways:

- Both leaders may share the password for the STP email account and coordinate reading and responding to emails.
- The current leader may set up auto forwarding of messages to the other
individual’s (e.g., a successor’s) preferred email account so that the individual may view correspondence. The STP leader may need to include the other individual’s email in replies. Prior to the transition, the current STP leader should share the email password with the successor.

**Dropbox folder**

Each STP leader has a Dropbox folder associated with the STP email account. This Dropbox folder is shared with STP’s Executive Director, STP’s Archivist/Historian, and (if appropriate) the STP Vice President or other leader who oversees the position.

Please use this Dropbox folder to maintain archives of final versions of documents for your work as an STP leader. This will enable us to transfer your work to your successor, and STP’s Archivist/Historian has access to these folders to collect relevant documents for STP’s archives. You may create subfolders to organize your work.

If you would you like to add the STP Dropbox folder to your personal or professional Dropbox account, or if you have any questions about using or accessing the Dropbox account, contact the Executive Director.

**STP Web page(s)**

Many STP Leaders have one or more pages on STP’s Web site relevant to their positions. STP Leaders have two options for editing and updating the information on these Web pages.

- **Login to the STP Web site** using your STP email address. (If you do not know your password, click the “Forgot password” link to reset the password for your STP email address.) Visit the Web page that you would like to edit and click on the “Admin view” option at the top of the page. You should now see options to edit the Web page.

  - If you are uncertain how to edit a Web page, send updates to STP’s Internet Editor or Executive Director, who can edit the Web page for you.

If there is a Web page that needs updating but you don’t have access to edit the page, contact the Internet Editor or Executive Director for assistance.

**Google Forms**

If your leadership position requires STP members to complete a form (e.g., an application for a grant or award that requires login to the STP Website), please contact the Executive Director who can set up the form for you in Google Forms and who can then provide you access through your STP email account to edit the form. This will facilitate the process of sharing forms with your successor prior to the end of your term. If you update a form, please maintain both the past version and the updated version in your Dropbox folder for archival purposes.

**Zoom Account/Google Meet**

STP maintains a Zoom account for teleconferences and includes an option to record a video of the teleconference. If you would like to set up a teleconference with your committee or conduct other business for STP, please contact the Executive Director for instructions on how to use the account. You may also use the Google Meet app available in Gmail.
